No

If you answered YES to any of these questions, go home & self-isolate right away. Call Telehealth or your health care provider, to find out if you need a test.

PCC 122

COVID-19 Protocols for Peel Condominium Corporation 122

Novel Coronavirus and COVID-19 stands for Corona Virus Disease – 2019 (year the outbreak began). COVID-19 spreads through the direct contact with the respiratory droplets of someone who is infected with the virus through their cough or sneeze. These droplets can spread up to two metres/six feet. It may be possible for a person to get COVID-19 by touching a surface or object that has the virus on it and then touching their own mouth, nose, or possibly their eyes.

PCC122 Protective Measures to Keep Contractors and Unit Owners Safe:

- Keep two metres/six feet distance from others. Clean your hands often, using soap and water or an alcohol-based (70%) hand sanitizer.
- Avoid touching your face with unwashed hands.
- Cover your cough or sneeze into your elbow or a tissue.
- Immediately throw the tissue in the garbage and wash your hands.
- A face mask or covering is strongly recommended if you are unable to maintain a two metres/six feet distance from others, such as on transit, in an elevator, when entering and leaving your apartment building.
- No more than 3 contractors allowed into a unit at any given time.
- Clean surfaces that the contractors touch before they arrive and after they leave
- Don't have contractors in your unit if you are sick.

Questionnaire

It is strongly recommended that every contractor fill out the questionnaire on the back side of this page and hand it in to the site manager before the start of any job.

If you suspect you may have contracted COVID-19, please go home and self-isolate immediately and contact Telehealth or your health care provider, to find out if you need a test.
