PCC 122

QUICK REFERENCE GUIDE

FOR EMERGENCY AND NON-EMERGENCY SERVICES

IMPORTANT NOTE: For general home repairs, **our PCC 122 Site Manager must be consulted first** to determine whether the Corporation or the homeowner has responsibility for the cost and repair of the work required. If the Corporation is responsible for the cost and repair, a Work Order will be issued by our Site Manager and a Board authorized contractor will be engaged. When a homeowner/tenant has hired a contractor directly to perform a service and a PCC 122 Work Order has not been issued for the job, the Corporation accepts no responsibility and will not pay the contractor or reimburse the homeowner for any cost of the service.
